

~TRADITIONAL SIDAMA
BAMBOO HUTS~

TAFESE ENTERPRISE

The SIDAMA region in the deep south of Ethiopia stretches from Lake Abaya to Lake Awassa. Amidst the huge shady forest trees and delicious coffee plantations on the green mountain slopes grows a very strong bamboo, which is used for the very typical and traditional Sidama BAMBOO HUTS. The building of these huts requires a specific skill, which only few people still master.

TAFESE ENTERPRISE can offer you these unique bamboo huts and other bamboo building solutions upon your customised request.

TAFESE ENTERPRISES OFFERS YOU:

- LOCAL PRODUCTS
